The main purpose of this course is to familiarize ourselves with the basic categories of philosophy and practice in Buddhism, a pan-Asian religious tradition of remarkable diversity and expansive geographical and chronological scope. While the course will always maintain an historical perspective, in order to provide us with a framework for understanding Buddhist developments in their cultural and temporal contexts, the course will be structured mainly along thematic lines, according to the traditional concepts of the “Three Jewels or Refuges”: Buddha (awakened being, exemplar, teacher); Dharma (teachings, doctrine); and Sangha (community), and the “Three Trainings”: Sila (ethics, morality, virtue); Samadhi (meditation, contemplation); and Prajna (wisdom, transformative insight). Following this structure, we will closely read primary sources (in translation) and secondary studies, in order to explore how Buddhists, from ancient to modern times, have viewed the world and lived their lives in the cultural settings of South and Southeast Asia (Theravada Buddhism), East Asia (Mahayana Buddhism), and the Tibetan and Himalayan regions of Asia (Tantric or Vajrayana Buddhism).
