Introduction to Organic & Biological Chemistry Laboratory
Chmy 124   Fall 2017

Instructor Information

Instructor:   Dr. Earle Adams
Office:      Chem Building 116
email:       earle.adams@umontana.edu
Office Hours: Monday 9-10am, Tuesday 10-11am and by arrangement

Course Description

Chmy 124 provides an introduction to general, organic and biochemistry laboratory skills and concepts. Students synthesize organic compounds or isolate them from biological materials, purify and analyze the compounds using “wet chemistry” and instrumental methods. Students practice careful measurements and observations, develop quantitative relationships between variables, apply patterns determined with known samples to unknown materials, and practice critical thinking skills.

Chmy 123 is a pre-/co-requisite for this course. Chmy 121 or equivalent general chemistry course is a pre-requisite for Chmy 123 and 124.

Weekly Schedule

Pre-Lab Meeting:   Tuesday 9-9:50 am in Chem 123
This meeting prepares you to understand the experiments and to work safely and efficiently.   Attendance is mandatory.
You should take careful notes during pre-lab lecture to be prepared for lab and for the exams.

Laboratory Sections:
    Individual lab sections meet on Tuesday and Friday.
    You must attend the section for which you are registered.

Course Materials and Electronic Devices

- Chmy 124 CoursePac (available in bookstore, required)
- Safety Goggles, green with elastic strap (available in bookstore, required)
- Sharpie® felt-tip pen (available in bookstore, not required)

- calculator (required; cell phone use is not permitted in lab)

- Several weeks during the semester, you will be asked to bring laptop/tablet to lab. Students without these devices can use the limited number of computers available in the Learning Center in Chem 107.

*Spectroscopy data, practice problems and exam study guides will be posted on the Chmy 124 Moodle site.
Student Conduct

All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or a disciplinary sanction by the University. All students need to be familiar with the Student Conduct Code. The University of Montana Student Conduct Code is available at http://www.umt.edu/SA/VPSA/indec.cfm/page/1321.

The majority of Chmy 124 students are honest and responsible. Be advised that I do enforce the Student Conduct Code in order to protect the honest students from academic misconduct.

Disability Modifications

DSS students, please contact me the first week of the semester to arrange accommodations, even if you do not yet have your DSS letter. If you think you may have a disability adversely affecting your academic performance, please contact DSS, Disability Services for Students (Lommasson 154, 243-2243).

Grades

195  · points shown are total for lab reports + protocols
   exp 1 (15), exp 2 (20), exp 3 (20), exp 4 (20), exp 5 (40), exp 6 (25),
   exp 7 (20), exp 8 (20), exp 10 (15)
40   · pop quizzes (given at unannounced intervals during M pre-lab meetings)
85   · two exams
320   · total pts

Letter grades will be based on the total out of 320 possible pts. Letter grades for the course will be assigned as follows:

≥86.67% guarantees B+    ≥83.33% guarantees B    ≥80.00% guarantees B-
≥76.67% guarantees C+    ≥73.33% guarantees C    ≥70.00% guarantees C-
≥66.67% guarantees D+    ≥63.33% guarantees D    ≥60.00% guarantees D-
<60.00% guarantees F
**Explanation of Lab Protocols and Reports**

Lab protocols are outlines of the procedures that you will do in the laboratory. Writing protocols each week ensures that you have a reasonable understanding of the lab exercise, so that you can work safely and efficiently.

*If you do not have a complete protocol ready to be initialed by the TA within the first 5 minutes, you cannot start the lab and you will receive a zero for the exercise.*

**Lab protocols:**

- can be hand-written or word-processed
- must provide all of the information needed to complete that experiment other than general lab techniques (such as using balances or volumetric devices)
- must provide information from tables if needed to complete the experiment
- must be in your own words (no scanning or photocopies)
- must include safety notes

Lab reports are based on the tear-out report sheets at the end of each exercise.

**Lab reports stapled to appropriate protocols are due as indicated on the first page of the report: either by the end of the lab period or during the first 5 minutes of the next lab period.**

Late penalty of 20% per day will be assessed after the due time for each lab report. Late penalty is also assessed if you forget to staple protocol, graphs, etc to the report and turn them in after the due time.

| Aug 24  | semester begins  
no Chmy 124 this week |
| Sept 03 | Monday is Labor Day, no pre-lab lecture  
**come to lab this week**  
Lab Locker Check-In  
Experiment 1: Automatic Pipet Practice |
| Sept 10 | Experiment 2: Density and Composition of Solutions |
| Sept 17 | Experiment 3: Synthesis, Purification and Analysis of Aspirin |
| Sept 24 | Experiment 3: Synthesis, Purification and Analysis of Aspirin (cont.) |
| Oct 01  | Experiment 4: Introduction to Chromatography |
| Oct 08  | Experiment 5: UV-Visible Spectroscopy, Absorption Spectra of Plant Pigments |
| Oct 15  | Experiment 5: UV-Visible Spectroscopy, Absorption Spectra of Plant Pigments (cont.) |
| Oct 22  | Experiment 6: UV-Visible Spectroscopy, Quantitation of Protein |
| Oct 29  | Experiment 8: Life Sciences Databases/MSDSs  
Experiment 10: HPLC |
| Nov 05  | Exam 1  
Tuesday finish up anyone who has not completed HPLC |
| Nov 12  | Experiment 7: Fischer Esterification  
Monday is Veteran’s Day, no classes |
| Nov 19  | Wednesday-Friday Thanksgiving Holiday  
no Chmy 124 classes this week |
| Nov 26  | Experiment 7: Fischer Esterification (cont.) |
| Dec 03  | Exam 2  
Lab Locker Check-out |
| Dec 10  | No final exam for Chmy 124. Study for your Chmy 123 final 😊! |
