

**Class Meeting Times:**

1. Section 02 Tuesday, 3:00-4:50 p.m.
2. Section 05 Thursday, 1:00 to 2:50 p.m.

This course is designed to be a one-credit, companion lab course to the separate lecture course GEO103N, Environmental Geology. Students can take GEO104N without GEO103N but it is recommended that they take both courses concurrently.

**Course Outcomes:**

- 1) You will understand general principles associated with environmental geology including: the spatial and temporal scales of the Earth; the Earth's principal materials (minerals, rocks, water, air); causes and controls of natural hazards; source and fate of water and air pollution; energy and water resources; flooding and coastal erosion; and how humans affect the Earth.
- 2) You will know the methods and activities geologists use to gather, validate, and interpret data related to environmental geology.
- 3) You will be able to detect patterns, develop and test hypotheses, and draw conclusions based on environmental data.
- 4) You will gain insight into how scientific theories are supported by quantitative measurements, scientific observation, and critical reasoning in environmental geology.
- 5) You will understand the means by which uncertainty is quantified and expressed in environmental geology.

**TA Office Hours:** Kim's office hours: TBD or by appointment

**Moodle and Communication:** Formal communication regarding class content and announcements will occur during the lab. Therefore attendance is critical! The class Moodle website will be used occasionally for communication and for providing relevant web resources.

**Course Grading System:** Final grades for this course will be based on the following:

90% Weekly Labs: This course consists of 14 labs. ***Attendance at each lab is required.*** No make-up labs will be available, but the lowest lab grade of the semester will be dropped. Each individual, graded lab will be worth roughly 6% of your overall grade.

10% Field Trip Exercise: This course will have one in-class field trip the week of **October 14-18**, which will involve a field exercise that will be collected and scored.

There will be no exams in this class.

**Late Work Policy:** Labs are due to the TA in-box by 5:00 p.m. on the day following your lab. The labs are designed to be completed within the two hours allotted. **No late work will be accepted.**

**Course Book:** This course will use the laboratory manual Investigations in Environmental Geology (Third Edition) by Duncan Foley, Garry D. McKenzie, and Russell O. Utgard. This spiral-bound lab

book is available through the UM Bookstore and through Amazon.com. **You are responsible for reading over the exercise for each week prior to coming to lab.**

**Weekly Course Schedule:**

<u><i>Weekday/Date:</i></u>	<u><i>Lecture/discussion topic</i></u>	<u><i>Assigned Reading</i></u>
<b>Week 1</b> Aug. 26-30	Earth Materials, Geologic Time, and Geologic Processes	Foley, Exercise 1
<b>Week 2</b> Sep. 2-6	Maps, Aerial Photos, and Satellite Images	Foley, Exercise 2
<b>Week 3</b> Sep. 9-13	Measurements, Basic Calculations and Conversions, Graphs	Foley, Exercise 6
<b>Week 4</b> Sep. 16-20	Earthquake Epicenters, Intensities, Risks, Faults, Non-structural Hazards, and Preparation	Foley, Exercise 4
<b>Week 5</b> Sep. 23-27	Volcanoes and Hazards of Mount St. Helens	Foley, Exercise 5
<b>Week 6</b> 9/30-10/4	The Loma Prieta Earthquake of 1989	Foley, Exercise 7
<b>Week 7</b> Oct. 7-11	<b>Kim's @ a conference   No Class</b> Google Earth Lab	Take Home   Ex. 3
<b>Week 8</b> Oct. 14-18	<b>Field Trip   Wear sturdy shoes</b>	Print Out
<b>Week 9</b> Oct. 21-25	Landslides and Avalanches	Foley, Exercise 8
<b>Week 10</b> 10/28-11/1	River Floods	Foley, Exercise 10
<b>Week 11</b> Nov. 4-8	Coastal Hazards	Foley, Exercise 11
<b>Week 12</b> Nov. 11-15	Groundwater Hydrology	Print Out

<b>Week 13</b>			
Nov. 18-22	Water Quality Data and Pollution Sources		Foley, Exercise 13
<b>Week 14</b>			
Nov. 25-29	<b>Thanksgiving   No Class</b>		
<b>Week 15</b>			
Dec. 2-6	Lake and River Contamination from Industrial Waste		Foley, Exercise 14
<b>Week 16</b>			
Dec. 9-13	<b>Finals   No Class....</b>		<b>GOOD LUCK!!</b>

**Students with disabilities:** The University of Montana assures equal access to instruction for all students, regardless of disability status. The Disability Services for Students (DSS) office will work with instructors and students to accommodate disabilities when they get in the way of your learning. If you have a disability that adversely affects your academic performance, and you have not already registered with DSS, please contact DSS in Lommason 154 or 406-243-2243. The TA will work with you to provide appropriate adjustments and facilitate your DSS needs.

**An important note about academic misconduct:** All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or a disciplinary sanction by the University. All students need to be familiar with the Student Conduct Code. The Code is available for review online at [http://www.umt.edu/vpsa/policies/student\\_conduct.php](http://www.umt.edu/vpsa/policies/student_conduct.php).
