

**PAUL M. LUKACS**

2740 Duncan Dr.  
Missoula, MT 59802  
Phone: (406) 243-5675 (office)  
(970) 988-1765 (mobile)  
Email: paul.lukacs@umontana.edu

---

**EDUCATION**

- Ph.D. 2005. Fishery and Wildlife Biology, Colorado State University, Fort Collins, CO.  
Dissertation: *Statistical aspects of using genetic markers to identify individuals in capture-recapture studies.*
- M.S. 2001. Fishery and Wildlife Biology, Colorado State University, Fort Collins, CO.  
Thesis: *Estimating density of animal populations using trapping webs: evaluation of web design and data analysis.*
- B.S. 1999. Wildlife Biology with High Honors, University of Montana, Missoula, MT.

---

**WORK EXPERIENCE**

Senior Associate Dean of Research and Graduate Studies 2021-present  
W.A. Franke College of Forestry and Conservation  
University of Montana  
Missoula, MT 59812

Oversee 3 PhD and 6 MS graduate programs serving ~140 graduate students including curricula, teaching assistantships, and research assistantships. Facilitate research enterprise for 46 faculty and numerous research professionals with >\$10M in annual research expenditures. Lead the McIntire-Stennis program for the college. Supervise the IT group for the college. Manage physical space for the college across 6 university buildings including offices, classrooms, and laboratories. Provide oversight for UM Foundation spending within the college. Interface with the Office of Vice President for Research, Sponsored Programs, and Graduate School. Assist with college development activities.

Chair, Department of Ecosystem and Conservation Sciences 2020-2021  
Professor 2020-present  
Associate Professor 2014-2020  
Assistant Professor 2011-2014  
Merit Awards Earned – 2015, 2016, 2018  
Wildlife Biology Program  
Department of Ecosystem and Conservation Sciences  
W.A. Franke College of Forestry and Conservation  
University of Montana  
Missoula, MT 59812

Department Chair – manage activities of a large, research-intensive academic department. Supervise 16 tenure track faculty. Engage with multiple undergraduate and graduate degree

programs.

Professor – engage in research, teaching, and service for the university – Maintain an extramurally funded research program in quantitative wildlife ecology. Publish results in international and local journals. Mentor graduate students. Teach undergraduate and graduate courses in areas of expertise.

Courses Taught:

- WILD 240 - Introduction to Biostatistics, Honors, 3 credits
- WILD 470 - Conservation of Wildlife Populations, 4 credits
- WILD 540 – Research Design, 3 credits
- WILD 541 - Research Design Lab: Introduction to R, 1 credit
- WILD 542 - Statistical Applications in Wildlife, 1-2 credits
- WILD 571 - Estimation of Demographic Parameters, 4 credits

Research:

- >\$9M in external research funding
- 74 publications while at UM (105 total)

University Service:

Institutional Animal Care and Use Committee	2022-present
Montana Forest Conservation Experiment Station	
Associate Director Search – Chair	2021
College of Forestry and Conservation Recruitment Committee – Chair	2020-2021
Faculty Senator	2014-2017
Executive Committee of Senate	2016-2017
Provost Search Committee Member	2016
Faculty Development Office Committee Member	2016-2018
Wildlife Biology Director Search – Co-chair	2014
Population Ecologist Search – Chair	2013
Wildlife Biology Program Grad Evaluation Committee – Chair	2015-2017
Wildlife Biology Program Website committee	2011-2015
College of Forestry and Conservation Communications Committee	2013-2017
Faculty advisor for the Student Chapter of The Wildlife Society	2013-2021
College of Forestry and Conservation Space Committee	2017-2018
Wildlife Biology Undergraduate Committee – Chair	2018-2020
Wildlife Biology Undergraduate Committee	2020-2021
College of Forestry Undergraduate Affairs Committee	2018-2021

SpeedGoat Wildlife Solutions, LLC 2016-present

Co-founder

Development and deployment of state-of-the-art statistical, data and workflow management software for wildlife biologists - [PopR](#). Statistical consulting and training. Our company was founded as a start-up with the assistance of UM Office of Technology Transfer and Blackstone LaunchPad.

Colorado Division of Parks and Wildlife  
Fort Collins, CO 80526  
Supervisor: John Broderick (Terrestrial Resources Manager)  
Biometrist  
Provide statistical analyses and advice to Colorado Division of Parks and Wildlife (CPW) researchers and biologists. Develop statistical analyses and designs for the CPW ungulate management program. Interpret the results of statistical analyses. Develop new, rigorous statistical methods for the design and analysis of telephone and Internet hunter harvest surveys. Perform statistical analyses in computer programs such as, R, SAS, MARK and Distance. Provide computer programming for new statistical software to analyze data from wildlife studies in R, C++ and Visual Basic. Extract and manipulate data in databases such as SQL Server and Access. Prepare manuscripts for publication in internal reports and peer-reviewed scientific literature. Present results at scientific conferences. Interact with personnel from State, Federal, University and private organizations to develop statistical theory and promote its application in wildlife research and monitoring. Provide statistical reviews of CPW research proposals and publications as well as documents from external scientists.

USGS Patuxent Wildlife Research Center,  
National Park Service,  
& IAP World Services. Fort Collins, CO 80525  
2005 – 2011  
Supervisor: John R. Sauer (Research Wildlife Biologist) Statistician  
Provide statistical assistance and advice for the design and analysis of long-term animal and plant monitoring studies in National Parks throughout the country. Develop new, rigorous methods for long-term monitoring and short-term learning. Teach statistical methods and sampling design to NPS personnel.

Colorado Cooperative Fish & Wildlife Research Unit  
Fort Collins, CO 80523  
1999-2005  
Supervisor: Kenneth P. Burnham (Assistant Unit Leader)  
Graduate Research Assistant  
Graduate student research focused on the development of statistical methods for the use of non-invasive genetic sampling to estimate demographic parameters such as abundance and survival. Research involved both theoretical statistical development and application of the theory to empirical data. Developed statistical theory in general form and applied it to lynx in Colorado. Earlier research focused on the design of trapping webs, a passive distance sampling method applicable to small mammal, herp and insect sampling.

**RESEARCH FUNDING**

**Total funding: \$9,073,000**

- Collaborative Planning to Support Talented, Low-income Graduate Students Being Employed while Completing their Degrees, National Science Foundation S-STEM, 10/15/23-9/30/24. \$99,000 PIs: C.A. Ogilvie, B.J. LaMeres, J.D. Macette, P.M. Lukacs, K.M. Greene.
- National Parks Conservation Fellowships: Technical Assistance Support to Biological Resources Division for Wildlife Conservation and Ecological Restoration, National Park Service, 8/1/2023-6/30/2028. \$450,000. PI: P. M. Lukacs
- Population and Spatial Ecology of Collared Peccary in the South Texas Plains Ecoregion. Texas Parks and Wildlife Department. 9/1/2023-8/31/2028. \$2,134,388 - subaward to UM \$361,648. PI: S. L. Webb, J. L. Dykes, W. E. Cook, M. E. Blum, P.M. Lukacs.
- Integrated Elk Management, Montana Department of Fish, Wildlife, and Parks, 7/1/2022-7/31/2024.

\$2,421,676. PI: J. Millspaugh, C. Bishop, P.M. Lukacs  
Modernizing harvest surveys in Texas. Texas Parks and Wildlife Department 10/1/2022-9/30/2022.  
\$132,574. PI: P. M. Lukacs  
Assessment of camera-based trail population estimators in a known deer population. Wisconsin  
Department of Natural Resources. 1/1/2022-6/30/2025. \$309,772. PI: P. M. Lukacs  
The Next Frontier: Developing and Evaluating Tools for Estimating Density from Remote Cameras to  
Examine Population Impacts of CWD and Effects of Management. \$174,103. PI: M. M. Mitchell,  
P. M. Lukacs, D. P. Walsh.  
An Innovative Approach to Evaluating Effects of Cervid Population Management For Chronic Wasting  
Disease on both Public and Private Lands. Iowa Department of Natural Resources. 10/2020-  
9/30/21. \$173,990. PI: P. M. Lukacs  
Habitat use and disturbance of nesting Kittlitz's murrelets at Tin City Long Range Radar Site, Alaska. U.S.  
Army Corps of Engineers. 8/2020-9/30/2021. \$139,958. PI: P. M. Lukacs  
Elk Recreation. Montana Fish Wildlife and Parks. 4/1/2020-6/30/2025. \$346,000. PIs: M. Mitchell, P. M.  
Lukacs  
Elk Recreation. Colorado Parks and Wildlife. 1/1/2020-6/30/2022. \$68,706. PI: P.M. Lukacs  
Breeding ecology and movements of Kittlitz's murrelets in a glaciated landscape: implications for  
monitoring. Alaska Department of Fish and Game. 7/1/19-6/30/21. \$143,073 PI: P. M. Lukacs  
Ungulate and Predator Population Dynamics, Modeling and Data Quality Advancements. Idaho  
Department of Fish and Game. 7/1/2019-6/30/2020. \$142,091. PIs: M. Mitchell, P. M. Lukacs.  
Evaluation of Resource Selection, Population Performance, and Movements of Pronghorn Throughout a  
Habitat Gradient. South Dakota Department of Game, Fish, and Parks. 1/1/2020-6/30/2024. PI:  
P.M. Lukacs. \$1,141,254  
Estimating Wolf Abundance with Camera Data. Alaska Department of Fish and Game. 1/1/19-6/30/20.  
\$114,599. PI: P. M. Lukacs  
Fisher Occupancy, Habitat Needs, and Responses to Management in the Northern Rocky Mountains.  
Idaho Department of Fish and Game. 1/1/2019-6/30/2019. \$58,286. PIs: M. Mitchell, P. M.  
Lukacs.  
Resource selection and population performance of mule deer and white-tailed deer in heterogeneous  
landscapes. South Dakota Department of Game, Fish, and Parks. 7/1/2018-6/30/22. \$857,874.  
PI: P. M. Lukacs  
Estimating deer and elk abundance in complex topography. South Dakota Department of Game, Fish,  
and Parks. 7/1/2018-6/30/22. \$122,730. PI: P. M. Lukacs  
Fisher Occupancy, Habitat Needs, and Responses to Management in the Northern Rocky Mountains,  
Montana Fish Wildlife and Parks. 10/2018-6/2022. \$245,955 PIs: J. Millspaugh, P. M. Lukacs, M.  
Mitchell  
Develop framework for estimating cougar population trend and potentially abundance. 7/1/2018-  
6/30/2020. \$52,952. PIs: M. Mitchell, H. Robinson, P. M. Lukacs.  
Ungulate and Predator Population Dynamics, Modeling and Data Quality Advancements. 7/1/2018-  
6/30/2019. \$157,407. PIs: M. Mitchell, P. M. Lukacs.  
Development of Integrated Population Models for Black Bears and Bobcats in Montana. 9/15/2017-  
6/30/2019. \$52,000 PIs: M. Mitchell, P. M. Lukacs.  
Sage-grouse population model programming and data structures. 7/17/2017-6/30/2022. \$30,000 PI: P.  
M. Lukacs  
Population dynamics, modeling and data quality enhancements. Idaho Department of Fish and Game.  
7/2016-6/2017. \$263,000. PIs: P.M. Lukacs, M. Mitchell  
Develop framework for estimating cougar population trend and potentially abundance. Idaho  
Department of Fish and Game. 1/2017-6/2019. \$101,791. PIs: M. Mitchell, P.M. Lukacs

Assessment of Mule Deer Survey Techniques, Population Estimates, and Harvest Recommendations for the Nevada Department of Wildlife. 1/2016-6/30/2016 \$30,144. PIs: C. J. Bishop and P.M. Lukacs  
Population dynamics, modeling and data quality enhancements. Idaho Department of Fish and Game. 7/2016-6/2017. \$220,719. PIs: P.M. Lukacs, M. Mitchell

Broad-scale analysis of mule deer survival: understanding process and improving prediction. Southern Rockies Landscape Conservation Cooperative. \$110,000. PIs: P. M. Lukacs and C. J. Bishop.

Quantifying detection probability of whales from cruise ships necessary for understanding whale avoidance and regulation compliance: supplement. National Park Service. 5/2015-12/2017. \$4,700. PI: P. M. Lukacs

Multistate wolverine occupancy analysis. MT Fish, Wildlife, and Parks. 6/1/2016-6/30/2018. \$40,000.

Big Game Management review for Arizona Game and Fish Department. 12/2015-6/30/2016 \$35,000. PIs: C. J. Bishop and P.M. Lukacs

Development of deer population models. South Dakota Game, Fish and Parks. 9/1/2015-6/30/2016. \$32,677. PI: P. M. Lukacs

Evaluating occupancy estimation and abundance relationships as an alternative method for ungulate abundance surveys - supplement. Idaho Department of Fish and Game. 10/2014-6/2017. \$54,280. PIs: P.M. Lukacs, M. Mitchell

Quantifying detection probability of whales from cruise ships necessary for understanding whale avoidance and regulation compliance. National Park Service. 5/2015-12/2017. \$116,819. PI: P. M. Lukacs

Evaluating occupancy estimation and abundance relationships as an alternative method for ungulate abundance surveys. Idaho Department of Fish and Game. 10/2014-6/2017. \$87,236. PIs: P.M. Lukacs, M. Mitchell

Develop habitat and population models for mule deer in Idaho to assist management of this game species. Idaho Department of Fish and Game. -- Supplement. 7/2014-6/2015. \$100,949. PIs: P.M. Lukacs, M. Mitchell, M. Hebblewhite

Mountain lion population modeling. Panthera, Inc. 2/2014-10/2014. \$36,000. PI: P. M. Lukacs

Spatial modeling of Brucellosis seroprevalance in elk. Montana Fish, Wildlife and Parks. 10/2013-4/2014. \$3,000

Development of deer population models. South Dakota Game, Fish and Parks. 7/1/2014-6/30/2016. \$99,430. PI: P. M. Lukacs

Rangewide sampling design for population size and trend estimation in greater sage-grouse. Western Association of Fish and Wildlife Agencies 7/2013-9/2015. \$147,177 PIs: P. M. Lukacs and V. J. Dreitz. Competitive – 4 of 42 proposals funded.

Field and Biometric Analyses of Biological Resources - supplement. U. S. Forest Service Regions 1 and 2. 9/2013-9/2014. \$5,896. PI: P. M. Lukacs

Develop habitat and population models for mule deer in Idaho to assist management of this game species. Idaho Department of Fish and Game. -- Supplement. 6/2013-6/2014. \$28,000. PIs: P.M. Lukacs, M. Hebblewhite

Applying spatial models to better understand the nature of ship-whale encounters in and near Glacier Bay National Park. National Park Service, Glacier Bay National Park -- Supplement. 6/2013-6/2016. \$25,475. PI: P. M. Lukacs.

Mountain lion population modeling. Panthera, Inc. 2/2013-2/2014. \$ \$30,546. PI: P. M. Lukacs

Western Elk Research Collaborative 2012-2014. \$181,799 PI: M. Mitchell, Co-PI: P. M. Lukacs

Factors influencing survival of mountain plover chicks in eastern, Colorado. Colorado Parks and Wildlife. 7/2011-6/2013. \$90,110. PIs: V.J. Dreitz, P. M. Lukacs, M. Mitchell.

Develop habitat and population models for mule deer in Idaho to assist management of this game species. Idaho Department of Fish and Game. 1/2012-12/2013. \$14,030. PIs: P.M. Lukacs, M. Mitchell, M. Hebblewhite

Field and Biometric Analyses of Biological Resources. U. S. Forest Service Regions 1 and 2. 4/2012-2/2013. \$28,506. PI: P. M. Lukacs

Range-wide population model and viability analysis for the Kittlitz's Murrelet. U. S. Fish and Wildlife Service Alaska Region. 7/2012-7/2013. \$24,999. PI: P. M. Lukacs

Applying spatial models to better understand the nature of ship-whale encounters in and near Glacier Bay National Park. National Park Service, Glacier Bay National Park. 6/2012-6/2016. \$189,911. PI: P. M. Lukacs.

Mountain Lion Population Modeling and Demography of Montana Deer and Elk Hunters. Montana Fish Wildlife and Parks. 7/2012-6/2014. \$49,000. PI: P. M. Lukacs

Mountain Lion Population Modeling. Panthera, Inc. 7/2012-6/2013. \$22,000. PI: P. M. Lukacs

Analysis of Bird Monitoring Data at the Region and Black Hills National Forest Levels. U. S. Forest Service Regions 1 and 2. 8/2012-3/2014. \$73,300. PIs: P. M. Lukacs and V. J. Dreitz

---

#### PROFESSIONAL ACTIVITY AND SERVICE

Affiliate Faculty, Texas A&M University

Affiliate Faculty, Oklahoma State University  
Affiliate Faculty, South Dakota State University  
Affiliate Faculty, University of Idaho, 2013-2016.

Associate Editor – Frontiers in Ecology and Evolution	2023-present
Associate Editor – Journal of Applied Ecology	2007-2014
Associate Editor – Journal of Wildlife Management.	2004-2005

National Hunting, Fishing and Wildlife Associated Recreation Survey working group member for the Association of Fish and Wildlife Agencies                      2009-2011

#### ***Professional Membership***

The Wildlife Society

Board Member of the Biometrics Working Group 2004-2005, 2009-2010. Montana Chapter member 2011-present  
**University of Montana Student Chapter faculty advisor**

#### ***Workshops, Guest Lectures and Other Service***

Colorado Division of Wildlife Statistics Workshop Series                      2006-2011

Topics include: avian monitoring design and analysis, survey sampling and study design, R programming  
Develop and present applied statistics topics for management biologists and research scientists.

Guest lectures at Colorado State University                      2005-present

Topics include: GRTS sampling (graduate level sampling), harvest management (undergraduate wildlife management), individual identification from molecular markers (graduate level conservation genetics).

Distance sampling workshop                      January 2003

University of Wyoming  
Presented distance sampling theory and data analysis methods to a class of graduate students.

FW 663 Sampling and Analysis of Vertebrate Populations                      January 2002 – April 2002

Department of Fishery and Wildlife Biology  
Colorado State University  
Graduate Teaching Assistant  
Responsibilities included organizing and leading review session, writing and grading exam questions, presenting some lectures. Course topics include capture- recapture, mark-resight, and distance sampling theory and application.

Program MARK Workshop                      June 2005, 2004, 2003, 2002, 2001, 2000  
Fort Collins, CO.

Teaching assistant. Assisted in teaching capture–recapture software and theory to biologists and statisticians.

Distance Sampling Workshop for Desert Tortoise Abundance Estimation  
Las Vegas, NV.

2001

Presented two multi-day workshop distance sampling theory and analyzed line transect data to aide in the long-term monitoring of the desert tortoise. Aided in field training of the sampling crew.

Consulting Biometrist 2004-2005  
USDA Forest Service

Contact: Robert Skorkowsky (District Wildlife Biologist)

Design and analysis of a monitoring program for the Routt and Medicine Bow National Forests avian Management Indicator Species. Design includes a stratified sample with distance sampling, latent abundance and patch occupancy estimators based on extensive pilot data.

Northern Spotted Owl Demography Workshop January 2004  
Analyst  
Analyzed long-term northern spotted owl capture-recapture data sets to estimate survival and population rate of change.
