Cameron Lawrence
Professor of Management Information Systems
cameron@mso.umt.edu

Dear Professor Lawrence,

I am delighted to inform you that the Board of Regents approved your nomination for emeritus status at their March meeting. The honor of emeritus status is reserved for those faculty members who have not only devoted years of service to the university, but also maintained a record of excellence in teaching, research or creative scholarship, and service. The nomination submitted by your peers and dean glowingly described your many notable achievements and I was impressed to learn of the impact of your scholarship within your discipline and the awards you received in recognition of those contributions, in addition to your university service and dedication to your teaching.

Your years of service to the University of Montana and to the state of Montana merit the appreciation and commendation of your students, your colleagues, and the university. Congratulations!

Sincerely,

A handwritten signature in black ink, appearing to read "Reed Humphrey". The signature is fluid and cursive, with the first name "Reed" and last name "Humphrey" clearly distinguishable.

Reed Humphrey
Acting Provost and Vice President for Academic Affairs
