SNA research consultant; January 2024-July 2025 (projected)

Elicit and analyze CCC Network to identify opportunities to build and strengthen network connections. Provide network-based feedback, training, and development.

Exploratorium Teacher Institute

SNA research consultant; June 2022-June 2023

Elicit and analyze Teacher Leader Network to identify opportunities to build and strengthen network connections. Provide network-based feedback, training, and development.

Resilience Informatics for the convergence of critical capacities to address regional-scale environmental change

NSF EPSCoR RII Track-2 project, submitted January 2019, received funding August 2019

Award number: 1920938; 4-year, \$4M grant

Co-PI, January 2019 to present

Design and implement multiple social network data collections and analyses for the project.

Serve on thesis committees for two doctoral students.

Consortium for Research on Environmental Water Systems (CREWS)

NSF EPSCoR RII Track-1 project

Award number: 1757351; 5-year, \$20M grant

Researcher, August 2019 to present

Design and conduct multi-year social network analysis of collaboration between project team members.

Serve on dissertation committee for one doctoral student.

FY 2019 Study of the U.S. Institutes for Scholars: Youth and Workforce Development: Closing the Skills Gap

Academic Director; July-August 2022, July-August 2021, and July-August 2019

GRANT PROJECTS, cont.

Scaling socio-ecological networks to co-innovate freshwater restoration solutions

NFRF grant proposal, submitted February 2019; rejected

Co-PI; December 2018-February 2019

Designed social network data collection and analysis for the project.

UNVEIL Network

NSF EPSCOR RII Track-2

Internal Reviewer; May 2018 – May 2021

Conducted yearly social network analysis of researchers participating in the grant to report on new collaboration and research activity between grant members and outside collaborators.

Social and Ecological Domains of Dam Removal (SEDDaR)

NSF Grant proposal, submitted January 2018; rejected

Co-PI, August 2017

Designed social network analysis for the project and conducted pilot social network study of Milltown Dam Removal Project.

Montana EPSCoR Multi-scale Assessment of Riverscape Complexity (MARC) Project

Researcher, August 2017 – January 2018

Worked under the *Social and Ecological Dimensions of Restoration Capacity* part of the project. Designed and conducted social network analysis of stakeholders surrounding the Milltown Dam Removal Project.

Green Stormwater Infrastructure

Cleveland Botanical Garden, subaward from Great Lakes Protection Fund GLPF #949.01

Co-PI - August 2016 - December 2017

Designed and conducted social network analysis of professionals involved in green stormwater infrastructure implementation in Cleveland, OH

CNH: Social and ecological foundations of restoration success

NSF Grant Proposal, submitted November 2015; rejected, revised, and resubmitted January 2018 (see SEDDaR, above)

Co-PI, August 2015 - July 2017. Designed social network analysis for the project.

READ-IT, Phase II

Army Research Office STTR, 2015

Post-Doctoral Research Fellow - September 2014-May 2015

Conducted validation studies of Renato Software, designed for the collection and analysis of cultural domain data

Using SNA to Examine the Long-Term Outcomes of Socially Excluded Adolescents

NIH Grant 1R21 HD068315-01A1

SNA Consultant – June - July 2014

TEACHING EXPERIENCE

Leading Teams and Conflict Management (UMT); UG three credit mgmt. major requirement

- Course description: This course teaches students essential skills in written, verbal, non-verbal, visual, and persuasive communication, building and equipping effective teams, providing coaching and feedback, relationship-building, and conflict management, mediation, and negotiation. There is an emphasis on skills practice through role play, simulations, and real-life applications.

Organizational Behavior (UMT); MBA core requirement

- Course description: Our goals are to understand and apply the adaptive leadership approach to addressing thorny problems in business organizations, develop our skills in crafting effective career networks, motivating employees and teams, fostering adaptive and agile organizational culture, and identifying and addressing conflict and inequality.

TEACHING EXPERIENCE, cont.

People, Process, and Technology II (UMT); UG three credit core requirement

- Course description: This course is the second in the people, process, and technology sequence. Our goals are to explore and develop our understanding of how business leaders can foster an agile organization, identify tools and techniques to effectively lead organizational change, and equip ourselves to be confident, ethical technology users and decision makers.

Human Resource Management (UMT); UG and MBA elective

- Course description: The role of human resource management is a crucial (and often misunderstood) part of an overall organizational strategy. This course is designed to help unravel the complexities of human resources within an organization and to help students understand the environment within which HRM occurs. A working knowledge of selection, training, assessment, and compensation tools and strategies are of relevance to the job seeker and will be addressed heavily in this course.

Diversity, Equity, and Inclusion: Creating an Inclusive Organization (UMT); UG and MBA one credit elective and non-credit digital badge for professionals; online asynchronous workshop for professionals

Course description: This course is the third section of the AAST/WGSS/BGEN Diversity, Equity, and Inclusion sequence. Our goals are to explore and develop our understanding of discrimination in our business institutions in the United States, identify causes and practical solutions, and equip ourselves to be the change agents who implement diversity, equity, and inclusion in the organizations where we work.

Conflict Management (UMT); MBA elective

- Course description: For many of us, w
- Workplace conflicts are one of the most stressful aspects of our jobs. They can make us feel frustrated, angry, and anxious. Because of these feelings, many of us choose (consciously or unconsciously) to avoid addressing conflicts when they arise. The purpose of this course is to provide tools and develop skills in effective conflict management. We look forward to working with you during this weekend elective. Please feel free to contact us with any questions.

Social Network Theory and Analysis in Environmental Governance (UMT)

- PhD-level course offered to doctoral students and post-doctoral fellows participating in the NSF EPSCoR Track 2 Grant: Resilience Informatics for the convergence of critical capacities to address regional-scale environmental change. Fall 2020

Social Network Theoretical Foundations (UMT)

- Summer workshop offered to doctoral students, post-doctoral fellows, and faculty participating in the social science aspects of the NSF EPSCoR Track 2 Grant: Resilience Informatics for the convergence of critical capacities to address regional-scale environmental change. Summer 2020

Course Instructor (2012-2015)

MBA & UG Negotiations and Conflict Resolution (UK).

Organizational Behavior (UK).

Principles of Management (UK).

Workshop Instructor

Links Center Workshop on Social Network Analysis (UK) – A one-week intensive workshop on social network analysis methodology. The workshop is attended by faculty members, graduate students, and practitioners from a variety of disciplines.
