Teaching Experience

Spring 2024	PUBH 591: Social Epidemiology. Graduate-level course designed to introduce students to the field of social epidemiology, with an emphasis on identifying and applying research methods to the social determinants of health and exploring policy concepts related to social conditions and health.
-------------	--

Spring 2023 NASX 391: Special Topics. *“Our ways keep us healthy”*: The intersection of American Indian traditional ceremonial practices and public health. Undergraduate level course exploring policy and practice related to whole-person health and traditional ceremonial practices among reservation-based and urban Native American populations.

2017-2018 Teach semester-long undergraduate courses. Teaching assignments:

- Sociology of Health and Illness (SOC 491)
- Social Stratification (SOC 325)
- Sociological Research Methods (SOC 318)
- Social Statistics (SOC 202).

Research Fellowships, Mentoring, and Training

2024- INSPIRE: Indigenous Substance Use and Addictions Prevention Interdisciplinary Research Education program mentee (selected). An NIH-funded 24-month substance abuse and addictions research mentoring program administered by the UW Indigenous Wellness Research Institute.

2017-2018 Research Fellow & Program Manager, Alexander Blewett III School of Law, University of Montana. Lead a multi-disciplinary team (law, sociology, economics, and history) in efforts to qualitatively study Montana codes and regulations to identify and prioritize areas for potential reform to reduce disparities among marginalized communities.

Current Sponsored Research

Robert Wood Johnson Foundation – Health Equity Scholars for Action

ID No. 81522 (RWJF) 02/24-02/26 \$259,780

Chase-Begay (PI)

A 24-month research development grant. Using a multi-method approach, conduct a cross-sectional survey and focus groups with an Indigenous young adult audience exploring the potential for a culturally and ceremonially based substance abuse prevention intervention in urban, multi-tribal communities in Montana.

Role: Principal Investigator

Completed Sponsored Research

AIAN Clinical & Translational Research Program – Development Award

5U54GM115371-05 (NIH) 08/20-12/21 \$50,000

Brown (PI)

The main goal of this project was to complete a sequential, mixed-methods assessment of the role of American Indian traditional ceremonial practices (TCPs) in an urban, multi-tribal Native American community and explore the potential for a TCP-based prevention intervention focused on reducing problem substance use within the target population.

Role: Co-Investigator

Missoula Native Connections

1H79SM082058-01 (SAMHSA) 04/19-04/24 \$1,156,714

Barnett (PI)

The goal of this five-year project is the design and delivery of a culturally tailored substance abuse and suicide prevention system of care for American Indian youth (15 to 24) living in and around Missoula County.

Role: Principal Investigator (04/19-05/21)

2015	University of Montana Dean's List (Spring 2015)
2014	University of Montana Dean's List (Fall 2014)
2014	University of Montana Dean's List (Spring 2014)

***NOTE**

My grandmother, June Chase, was extremely proud of her status as an alumna of the University of Montana, and I was proud to follow in her footsteps. Unfortunately, she passed before I was able to complete my PhD studies. Her sister was able to travel from our reservation to attend my graduation in my grandmother's stead. As part of a family gathering following graduation, she gifted me with my grandmother's family name to carry forward. I made the decision to honor my father's family by taking his mother's family name (McCrackin) as my new middle name, and I chose to hyphenate my new last name with my husband's surname (Begay). This is why my prior work used the name D'Shane Barnett. In June 2023, my name was legally changed to Damian M. Chase-Begay.
